

Nu-Tek Products

Peptones, Hydrolysates and Yeast Extracts

Pro Series

Nu-Tek Peptones and Yeast Extracts

- Ultrafiltered
- Brilliantly clear in solution
- Non-GMO
- Kosher, Halal and Organic Options
- Improved Yields
- Excellent for media supplementation, mammalian cell culture (e.g. CHO), and fermentation
- Additional characterization of specific product attributes

SOURCE	PRODUCT NAME
Yeast	FP100
	YE903
Soy	HSP-A10KF
	HSP-N UF
Pea	HPP-A UF
Wheat	Wheat Hydrolysate UF

Classic Series

Nu-Tek Peptones and Yeast Extracts

- Microfiltered
- Clear in solution
- Non-GMO
- Kosher, Halal and Organic Options
- Improved Yields
- Excellent for media supplementation and advanced cell culture and fermentation applications

SOURCE	PRODUCT NAME
Yeast	L01
Soy	HSP-N
	HSP-A
	HSP-I
Pea	HPP-A
Wheat	Organic Wheat Hydrolysate

Biopharmaceutical and industrial fermentation leaders increasingly pursue new methods to augment, supplement, or change media formulations to maximize process control and reproducibility.

Nu-Tek's plant-based, animal-origin-free peptones, hydrolysates and yeast extracts provide a proven way to deliver complex nutrition while maintaining control, regulatory confidence, and supply security. Derived from sustainable plant and yeast sources, Nu-Tek's products supply critical profiles of peptides, amino acids, vitamins, and minerals that support robust cell and microbial performance. Products are available in the Pro (ultrafiltered) and Classic (microfiltered) series, supporting a wide range of cellular applications,

and may be leveraged as supplements to existing media or as stand-alone nutrient sources.
